

Assignment expectations and Grading policy
MATH 327, Spring 2018

Assignment expectations

- Write your name on the top right corner of the first page of the assignment.
- Write the assignment number on top of the first page.
- Show your work in every problem.
- Use a pencil for your work.
- Write legibly.
- Staple all your pages together when turning in the assignment. I will not accept an assignment with loose pages.

Grading Policy

- Each assignment will be worth **20 points**.
- **10 points** will be awarded for submission and if substantial amount of work is been shown in majority of the problems. I want you to work on every problem and think about each of them. If you do not get a problem, that's fine, but you should try it and show the work that you have put in.
- I will grade a collection of randomly selected problems from the assignment. This will constitute the remaining **10 points**.
