

Project 1: Methods For Finding Roots

Gregg Waterman

Math 451

April 18, 2014

| | |
|---|---|
| Comparison of Rates of Convergence..... | 1 |
| Comparison of Errors | 1 |
| Stability - Newton's Method | 1 |
| Conclusions | 1 |

Rate of Convergence

Here there will be scripts run, vectors and graphs created.

%Any discussion should look like the above, not like this!

Error

Here there will be more scripts run, more vectors and graphs created.

Stability of Newton's Method

And even more scripts will be run, more vectors and graphs will be created!

Conclusions

Here you will summarize what you found about the two methods in the course of this project
